ADHD TEACHER ASSESSMENT

Student First Name	Last Name	Date of Birth (DD/MM/YYYY)

Dear Educator,

We are currently evaluating one of your students to determine if they may meet the criteria for Attention-Deficit/Hyperactivity Disorder (ADHD). Your insights and observations in the classroom are an essential part of this process, and we greatly value your input.

To make this as convenient as possible, we are using an online platform called NovoPsych to complete the traditional Vanderbilt forms. We kindly ask that you complete this online form as thoroughly and honestly as possible, as your feedback will help us better understand the student's behavior and needs.

You can access the form by scanning the QR code below or visiting the URL. Once there, simply enter the student's name and date of birth to complete and submit the form electronically:

JoshNP.com/adhd-teacher

If you would prefer traditional paper forms, you may find the forms you need on the following pages, along with return information found at the end of the second page.

Thank you for your time and thoughtful contributions to this evaluation. If you have any questions or need further assistance, please don't hesitate to reach out.

Yours in Health,
