EVALUATION PROCESS FOR ANXIETY / DEPRESSION

Hi there!

I hope this letter finds you and your family feeling well. Thanks for reaching out about getting an evaluation for your child, especially if you're concerned about anxiety and/or depression.

To get a complete and accurate picture, we use several tools including the GAD-7 (Generalized Anxiety Disorder), PHQ-9 (Patient Health Questionnaire), and SCARED (Screen for Child Anxiety Related Disorders) forms. These forms are designed to help us understand how your child is feeling and identify any challenges related to anxiety or depression they might be facing. You'll find both child and parent versions of these forms enclosed with this letter.

The child versions of the GAD-7, PHQ-9, and SCARED are for your child to fill out. Their honest answers are crucial for us to understand their emotional state. The parent version of the SCARED is for you to share your observations about your child's emotional well-being at home.

We ask that you help your child complete their forms and fill out the parent versions yourself. Please bring these completed forms with you to your next visit, and try to arrive about 15 minutes early so we have enough time to go through them properly.

We understand that this process might bring up various emotions and questions, so please don't hesitate to call us at 337-470-3860 if you need any more information or support.

Thanks for choosing us to help with this important aspect of your child's emotional health. We're looking forward to working closely with you to ensure the best possible outcome for your child.

Yours in Health,

Joshua LeJeune, FNP
